02845 SPECIFICATION FOR INSTALLATION OF TREATED TIMBER DELINEATORS

END OF AMENDMENT

**SECTION 02845 - SPECIFICATION FOR INSTALLATION OF TREATED TIMBER DELINEATORS**

- a. Furnish all tools, labor, equipment and materials to construct horizontal timber delineator barriers from one (1) to five (5) tiers in height, at various locations in accordance with the attached drawing and following specifications. [AM#1] Timber delineators shall be 6" x 6" in cross-section.
- b. Delineators shall be constructed to designate and outline parking areas, picnic sites, walking trails, camping sites, and any other area the Contracting Officer's Representative may specify. The Government will provide sufficient staking to designate the proposed site limits, and shall advise the Contractor as to the number of tiers desired at each site.
- c. The Contractor shall clear the proposed delineator alignment of rocks, brush, and debris prior to laying the timbers, and do all necessary site leveling before constructing the barriers.
- d. The timbers shall be placed end to end, in line, with staggered end joints when more than one (1) tier high.
- e. The bottom tier, shall be drilled and anchored at each butt joint using rebar. The second (2nd) through fifth (5th) tiers shall be attached to the lower adjacent tier by drilling a pilot hole through the tiers and then nailing the timbers together using ten-inch to twelve-inch (10"-12") long, three-eighths-inch (3/8") diameter, bridge nails. The pilot holes shall be small enough diameter to hold the bridge nails snugly and require that the nails be driven through the pilot holes into the underlying layer.
- f. It shall also be necessary at times for the Contractor to cut the timbers into shorter section or pieces. Timbers less than four feet (4') in length shall not be used. These cuts may be square cut or beveled, depending upon the C.O.R.'s instructions per installation. Regardless of timber length, each tier shall still be installed as set out in above paragraphs.
- g. The Contractor shall exercise care in constructing barriers to insure damage to trees and vegetation will is essential to obtaining necessary alignment and grade. The Contractor shall restore work area to near original condition and shall clean up and remove all debris resulting from his activities.
- h. Payment will be by the linear foot of timber installed.

i. Work shall be periodically inspected by the Contracting Officer's Representative, who shall advise the Contractor of any deficiency found. The Contractor will take immediate action to correct said deficiency and to insure that the problem does not recur.

j. No payment shall be made until the job has been inspected and approved by the Contracting Officer's Authorized Representative.
